

Will Hanford Ever Be Cleaned Up?

Public Forum

7 p.m. Wednesday, August 25th

Hood River Hotel, 102 Oak St.

6 p.m. pre-meeting

Clean-up along the Columbia River at Hanford has been underway over the last several years. But yet to be determined is: How clean is clean? What standards will be used to measure if the 100 Areas along the River are clean enough to protect future generations?

Does the clean-up that is occurring meet your expectations? Is it protective enough?
We want to hear your thoughts on the current clean-up effort at Hanford!

**Columbia River United encourages anyone who cares about
protecting the Columbia River to come to this very important meeting.**
